Advanced Technology Park
Be'er Sheva, Israel

12/15/2016

Dear Roni,

Thank you to you and your team for developing and facilitating the experience for our Global Solutions team in November 2016. The key objectives of the workshop included:

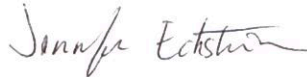

- Increasing our awareness of the Israeli Innovation Ecosystem
- Exploring how exponential technologies can be used to mitigate cyber risks
- Expose us to founders mentality and relevant start-ups

Each of these objectives were delivered above our expectations. As a result of the workshop we have developed several new initiatives as part of the global strategic plan. We will also develop a meaningful presence in Israel through your "Landing Pad" process.

CyberSpark's thought leadership and openness to customize the workshop was unprecedented. The experience has been characterized as life changing by our executives.

Please feel free to utilize this note as a reference when developing new business partnerships while being mindful of our non-disclosure agreement.

Yours sincerely,

Jennifer Eckstein

Global Director, ABIU Supply and Support
